About our Speaker -Jules Christopher Regout V: He was born in Taiwan to a Dutch father and an American mother and has also lived in Brazil and Canada. He has visited 11 countries - including Egypt and the Ivory Coast. He grew up mainly in Marin County, California. From all the places where he has lived, he has acquired a gift for foreign languages. He is fluent in Portuguese and highly conversant in Spanish and French and speaks a little Mandarin.

He has served in a variety of roles throughout his life, encompassing English teaching, the military, the technology sector, biotechnology and the luxury construction industry.

Jules is a direct descendant of Petrus Regout, who was a leader of the Industrial Revolution in the Netherlands. The Regout family name is known internationally for fine porcelain connoisseurship which can be traced back to Maastricht, Holland, where Jules' ancestor, Petrus Regout, launched the Regout family porcelain industry in the 19th century.

Jules' interests are linguistics, literature, writing, history, military, foreign affairs, politics, the security sector, new world order studies, geology, religion, and health freedom. He recently returned from two weeks visiting his father in Canada. That is why he is especially concerned about what socialism has done to Canada, and he does not want the same to happen in the USA.

You will also learn how socialism was tried by the Pilgrims when they first came to America and what a disaster it was. It almost caused them to starve to death! It wasn't until Governor Bradford stopped their "communal" living and allowed every member of the colony to have their own private property and to do with it what they wanted, that the colony began to flourish and thrive. The Pilgrims learned firsthand the importance of private property ownership and the free enterprise system. **We hope you can join us on Nov. 19th. Please bring a friend!**
