

AB 2164, Seeks to Prevent Kidnappers from Being Held Accountable for Their Actions!

3-14-26

Author - Assemblywoman Rebecca Bauer-Kahan, et. al

SUMMARY

If AB 2164 is passed, pro-abortion Democratic legislators will be able to ensure that people who kidnap minors from other states and bring them to California for abortions and sex-change procedures will not have to face legal accountability for their actions. Also, the governor of California would be allowed to "extradite" back to California anyone charged in another state for illegally pushing a California abortion or a California "sex change" upon a minor.

TALKING POINTS

- The Preamble of the Constitution specifically states that we are to ensure domestic tranquility, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity. Therefore, allowing kidnappers to abduct anyone without facing legal consequences is unconstitutional.
- The Declaration of Independence specifically states that we are all entitled to life, liberty, and the pursuit of happiness. Obviously, kidnappers deny their victims these rights.
- Abortion causes physical, psychological, and emotional harm to women and girls. Women and girls have even died as the result of abortion procedures.
- Sex-change procedures harm both adults and minors. (They have been harmful to the human body ever since they were invented.) For instance, Elle Palmer, who began to receive cross-sex hormones from Planned Parenthood as a teenager, began to experience a plethora of very serious health problems 10 years later.
